

Grand Avenue Bridge Closure Schedule September 5-November 30

In order to avoid breaks in training and to prevent students from falling behind, we have created this Bridge Closure Schedule. If this schedule doesn't work for you, you may also choose to attend classes at one of our other locations. It is important during this hectic time that students keep consistent with their training.

When enrollment opens, please sign up for the class that you plan to be in AFTER the bridge is open again, the temporary Bridge Closure Schedule is not set up in our online system. Please notify us if you would like to temporarily attend classes at an alternate location. We will work with each family individually to find a solution that best suits your needs during the GAB closure.

For more information on the GAB closure please see the following links:

The [Colorado Department of Transportation's web page](#) on the bridge has information on the latest aspects of the project, a hotline and a link to sign up for updates.
